DETAILED ACTION

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: the claimed invention has been clearly defined over the prior art of reference.

The prior art of reference has failed to disclose or suggest a filter device for filtering fluid flowing through a lumen defined by the wall of an anatomical structure comprising: a tubular sheath having a lumen, a guidewire, and a filter element carried on a distal portion of the guidewire such that the filter element is advanced through the lumen by advancing the guidewire and is retracted through the lumen by retracting the guidewire, the filter element having pores and having proximal and distal ends and being expandable from a collapsed configuration when the filter element is restrained in the lumen of the sheath to an expanded configuration when the filter element is unrestrained, the filter element in the expanded configuration having a proximally facing opening which is larger than the pores, the guidewire extending to at least the distal end of the filter element and a method for filtering a blood flow with the filter device as recited in the claims.

Claims 1-19, 40-44, 45, 47-50.

Art Unit: 3731

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The Terminal Disclaimer has been approved on 05/13/2005.
